

Fog Policy

In the event that Fog delays the start of play, the club's policy will be:

1. You cannot drive off until you can see the white disk that is located on the end tree of the avenue from the flagpole.
2. After play has commenced, you remain responsible for being able to see where your ball is landing, and that if conditions deteriorate, then you should cease playing.
3. If the pro-shop is open, they are responsible for advising when play can commence
4. If the pro-shop is closed, the member(s) takes full responsibility for ensuring the above policy is correctly observed.
5. Until play commences, all booked times will be lost. Play will then continue as per the booking schedule.
6. At the time play is allowed to commence, and at the discretion of the pro-shop only, members present who have lost their tee time immediately prior to play commencing may be permitted to walk out and commence at the second or fourth tees only if they wish.

At the time of writing, the country remains subject to COVID restrictions, with social distancing requirements, and the clubhouse closed. Members are therefore discouraged from waiting once tee times are lost.
